Why AdBlue System Failures

Are Becoming a Fleet Safety Issue in Twenty Twenty Six

By Rachel Pearson, Key Account Manager and Advanced FORS Practitioner

AdBlue in the Spotlight:

No longer just an emissions issue.

System Failures Impacting Safety & Uptime

What's Happening on the Road

- Sudden Power Loss
- Limp Mode Activated
- Won't Restart
- Immobilised in Traffic

Why AdBlue Failures Are Rising

- Crystallisation & Contamination
- Sensor & Injector Failures
- Fault Codes & Derating
- Extended Downtime

Industry Safety Concerns

Shutdowns During Heavy Loads & Roadside Work

Serious Risks for Drivers & Workers

Everyday Fleets Affected

- Missed Deliveries
- Recovery Costs
- Stranded Drivers
- Audit Pressures

Proactive AdBlue Management

- [x] Quality AdBlue Supply
- [x] Monitor Usage Closely
- [x] Train Drivers Early
- [x] Keep Clear Records

FLEETBLUE

Licensed AdBlue®

Control AdBlue. Reduce Risk. Keep Vehicles Moving.
